

Curriculum Planning

Intent

We ensure that personal, social and health education is embedded across the whole curriculum. Whilst providing all children with a planned 'spiral' programme of learning opportunities and experiences that help them happily grow and develop as individuals, members of families and within their community. Fundamental British Values of Democracy, Rule of Law, Tolerance, Mutual Respect and Individual Liberty are explored through our approach and are also embedded across all aspects of school life. PSHE makes a significant contribution to children and young people's personal, spiritual, moral, social and cultural development. Using the 'Growing up in North Yorkshire' information we are able to design a curriculum based on meeting the specific needs of all our pupils at Gladstone Road.

We follow and adapt to meet the needs of the children at Gladstone Road School. With Relationships and Health Education becoming statutory in September 2020, the government want pupils to be able "to embrace the challenges of creating a happy and successful adult life". Children will be taught core knowledge broken down into five manageable sized units taught in a carefully sequenced way across the school each year building on their previous learning. We therefore provide a spiral programme of knowledge, skills and attribute development, where prior learning is revisited, reinforced and extended in age- and stage-appropriate contexts through engaging and inspiring stimuli.

These five themes are:

- Me and My Relationships – See our SRE policy for more information
- Keeping Myself Safe
- My Healthy Lifestyle
- Me and My Future
- Becoming an Active Citizen

Within these themes, many cross curricular links are made to meet the wider needs of the National curriculum. Our interwoven learning outcomes cover; sex education and relationships, online safety, drugs, alcohol, tobacco and wider high-risk taking behaviours, careers education and personal finance, citizenship, healthy lifestyles and emotional health and wellbeing.

Implementation

During lessons, we aim to use active teaching and learning methods to develop questioning, thinking and debate skills to empower, motivate and inspire our learners. Children at Gladstone Road use the skills and values learnt through our PSHE curriculum in real life context and distancing techniques to bring learning to life and make it relevant.

In addition to weekly PSHE lessons, we use events such as Anti-bullying Week, Children's Mental Health Week and Safer Internet Day to ensure that our pupils have a well-rounded PHSE education.

Well-being ambassadors provide support for pupils in KS2.

Impact

Pupils demonstrate that they are open, sensitive and reflective individuals who have tools to respond and manage issues in their own lives and have a deep moral understanding of the impact of their actions on others. Pupils use their questioning and debate skills across the curriculum, demonstrating respect and sensitivity to others.

GOLDEN THREADS	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Autumn 1 - Me and My Relationships							
Autumn 2 - Keeping Myself Safe							
Spring 1 - My Healthy Lifestyle
